Megan,

We have recently spoken to Ms. Shields at around 3:25pm today. Her pre-filter is stopped up AGAIN on her water system. We were able to troubleshoot the issue over the phone but I am making you aware of the situation. She will be staying in touch with us and alerting us to any changes. We have not mentioned to her yet, but her well pump may be too low, and is picking up way too much debris. We will let you know if things change.

Thanks,

[Nonresponsive based on revised scope]

Thank you Chris, I'd be happy to work with **Nonresponsive based on revised scope** on setting up quarterly service checks with the residents. I will look for your email and then reach out to Robert to coordinate.

Thanks

Meg

Subject: Quarterly Maintenance

Good Afternoon **Nonresponsive based on revised scope**

Thank you for your call to Megan today. Yes, EPA would like to secure quarterly maintenance on the water treatment systems for the Shiloh Church Road Site. I am asking **Nonresponsive based on revised scope** copied on this message) to check the subcontract just to make sure we are still within the period of performance (I think we are)

Meg will work with you to set up quarterly appointments at the convenience of the residents.

Meg, we will need at least 3 weeks notice to get the sampling set up. START will perform the sampling. I believe it will be most convenient for our resident customers if we do the sampling and maintenance at the same time.

Nonresponsive based on revised scope I will send Meg the list and appreciate if you can work together on the schedule. Of course, any service calls needed between quarterly checks are also permitted. All of Kinetico's invoices should be sent to Environmental Restoration, LLC.

Please contact me with any questions

Thank you
Chris
